

THE SKI HUT

77/78

Starting 25 years ago, with three sewing machines, Trailwise is now a leading supplier of quality down clothing and other backpacking gear. Their reputation for design and manufacturing expertise has spread nationwide and the name Trailwise has become synonymous with quality. The key to their success is that they haven't lost sight of their main responsibility: the comfort and safety of their customers. Each piece of backpacking gear is designed and manufactured as if it were to be worn, or used personally.

Trailwise pays special attention to styling features. For example, jackets have hidden elastic inner cuffs to keep out wind and cold. Two-way zippers are covered by a snap-fastened draft flap. Parkas and jackets have a waist drawstring allowing the wearer to adjust the garment for a snug fit to keep out drafts. Jackets have cargo/handwarmer pockets for comfort and convenience.

Trailwise believes that a woman should not try to fit into a man's small or re-sized garment. Therefore, the Lady Logan Jacket, Arctic Lady Vest and Mountain Lady Parka are cut especially to fit women.

FABRIC

To the beginner the terms used in describing fabrics are confusing. The two fabrics used in Trailwise garments are nylon taffeta or a blend of 65 Dacron/35 cotton. The

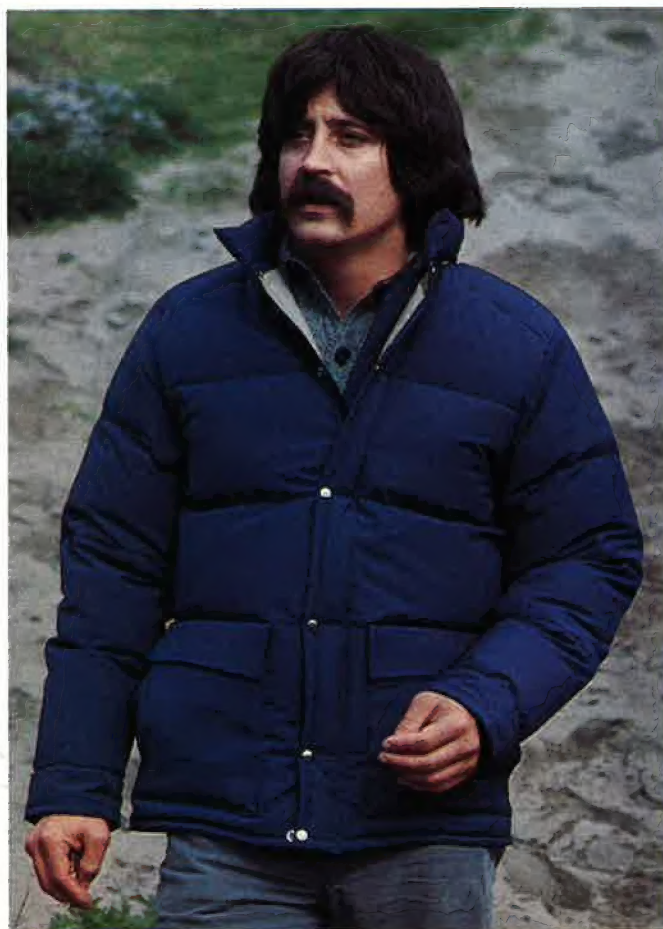

advantage of the nylon taffeta used by Trailwise over ripstop nylon is a higher thread count (252 threads per square inch compared to 212 threads per square inch). The result is a tighter weave. It is stronger, more downproof, more windproof and more water repellent.

65/35 fabric is woven from a yarn combining 65% Dacron and 35% cotton. The result is a blended fabric that is extremely consistent. It has great dimensional stability, strength, wind and water repellency. On the other hand in weaving 60/40 fabric two different types of yarns are used, each passing in only one direction through the fabric.

Denier is a term used to indicate the fineness of the thread used in a fabric. The lower the denier, the finer the thread. This is important to understand when comparing fabrics because the more threads per square inch, the more impermeable the fabric.

DOWN

Trailwise uses only 100% goose down that is unsurpassed as insulation and is lightweight and compressible. This down has a high percentage of down clusters, in fact one ounce will fill 600 cubic inches of space (the industry standard is 550 cubic inches). In addition, Trailwise puts a high percentage of down in the upper body areas where it is needed to keep the body warm.

TRAILWISE 65/35 LOGAN

Offering an alternative fabric choice for the versatile Logan Jacket, Trailwise wrapped the down-filled nylon shell of the original Logan with an outer layer of tough, water resistant and wind tight blended 65/35 dacron/cotton fabric. Raglan sleeves for comfort, with concealed knit cuffs at wrist. Cargo pockets and down-filled hand-warmer pockets. Snag-free nylon coil zipper covered with a down-filled draft flap. Drawcord at waist provides extra warmth. Comes with stuff sack. Sizes: S,M,L,XL. Color: light navy, green or rust. Inner color is sand.

Av. Wt. 25 oz. \$74.50

TRAILWISE LOGAN JACKET

Our popular intermediate weight down jacket for mountain or city use providing the warmth of several layers of wool with less weight and bulk. The good looking super-nyl shell with sewn-through seams is filled with warm fluffy goose down. Comfortable raglan sleeves have concealed knit cuffs at wrists. The Logan has both cargo pockets and down-filled hand warmer pockets. A snag free coil zipper is covered with a down-filled draft flap. Drawcord cord at waist for extra warmth. Comes with its own stuff sack. Men's sizes: S,M,L,XL. Colors: royal blue, berry, copper or kelly green.

Av. Wt. 25 oz. \$67.00

LOGAN HOOD

Optional down-filled hood snaps to collar of Logan, Lady Logan, or 65/35 Logan Jacket. Drawstring allows hood to be pulled snugly around face. Sizes: M or L. Specify color and fabric to match jacket.

PATAGONIA PILE SWEATER

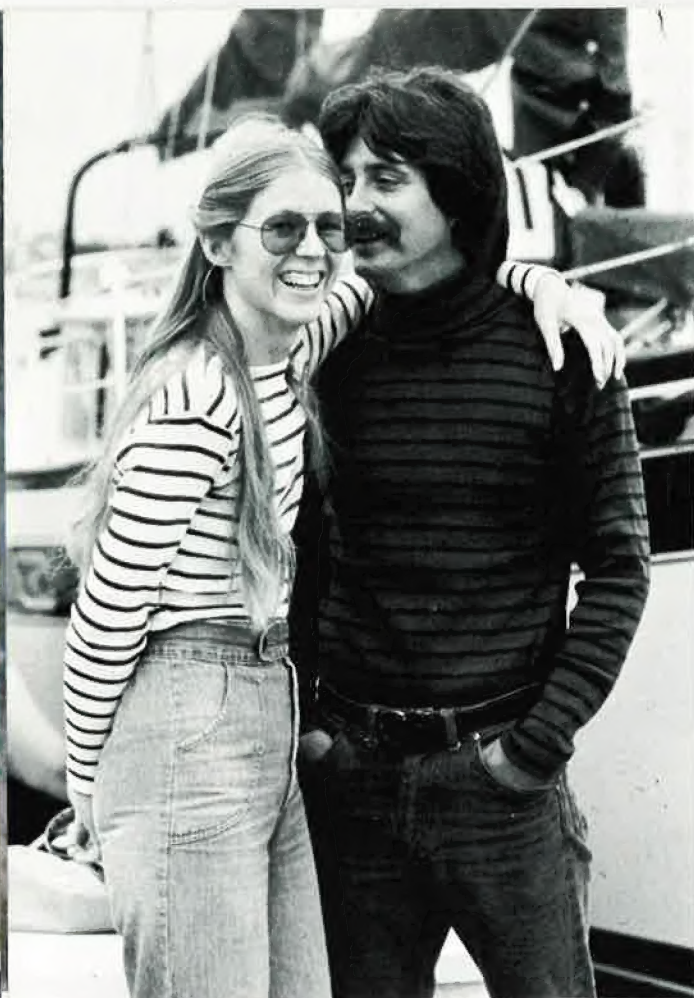

Nick-named the Fuzz Jacket, this sweater offers the warmth of several wool sweaters with less weight and bulk. The pile on the inside traps air between garment and body. The material retains very little moisture; body moisture passes through readily. It dries rapidly, even while being worn. The pile retains its loft and warmth when wet. Front zipper and two generous handwarmer pockets. Knit cuffs and hem seal off sleeves and body. Cut for maximum warmth and mobility; the arms can be lifted without shifting the sweater. Color: blue. Sizes: S,M,L,XL.

Av. Wt. 21 oz. \$35.00

P & O PARKA

An attractive coat for city wear as well as a practical garment for mountains, this impeccably tailored shell parka is constructed from proofed 100% cotton poplin. Double thickness of material throughout except over shoulders, where 3 layers are used. Design features include: double-slider nylon zipper covered by weather flap with concealed snap closures; adjustable button cuffs lined with wool-flannel, two large pockets with expansion bellows, fold-over inner flaps and button-down outer flaps; zippered outer map pocket; button-closure inner breast pocket, double thickness integrated hood and drawcords at waist and hood. Av. Wt. 32 oz. \$62.00

SAILOR SHIRTS

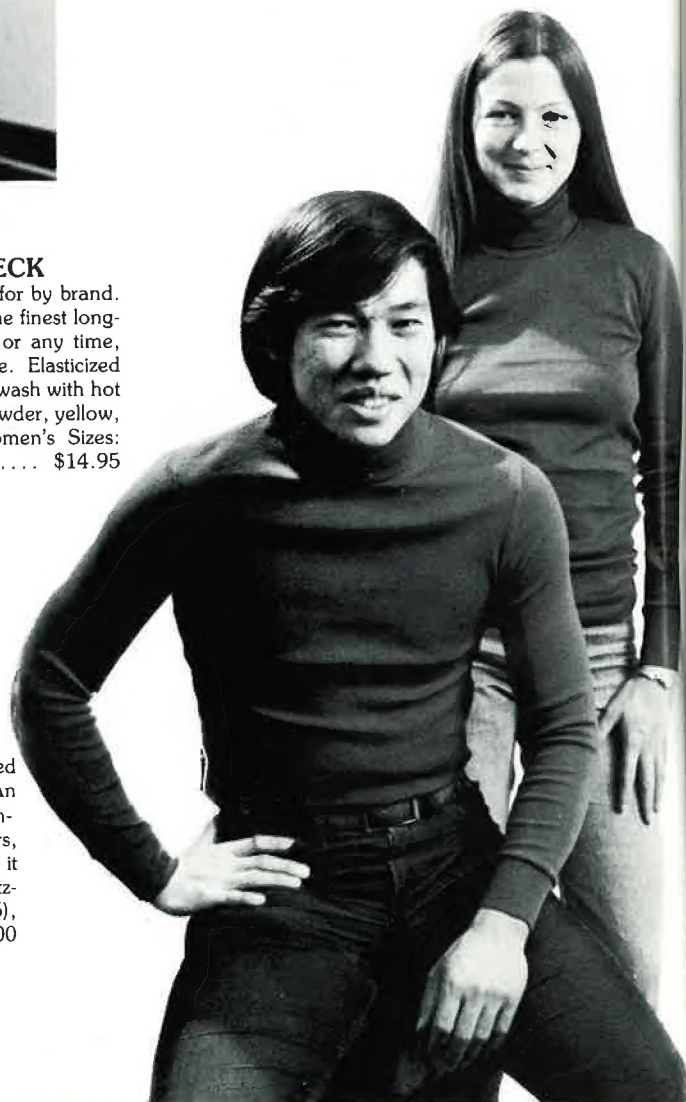

An authentic sailor shirt just like the ones worn for years by French, Russian and Greek sailors. Nothing is as comfortable to wear as cotton and 100% long staple Egyptian yarn is noted for its strength and resilience. It's knitted into a thick but tight rib that is durable and machine washable. The boat-neck is handsome worn by itself or over a light shirt. The turtle neck is particularly practical for traveling or for use as a mountain garment. Sizes: XS,S,M,L,XL in boat neck or turtle neck. Colors: white and blue or blue and red. Av. Wt. 15 oz. \$18.00

MEDICO COTTON TURTLENECK

Perhaps one of the few turtlenecks worth asking for by brand. The Medico jersey is made in West Germany of the finest long-staple cotton. Gore-Tex

Until now, the two most desirable characteristics of material used in backpacking—water resistance and breathability—have been impossible to combine. Gore-Tex, a microporous (over 9 billion pores per square inch) polymeric film, combines the water repellent qualities of urethane coated fabrics with the breathability of 60/40 fabrics. Gore-Tex is used in laminated form in Storm King clothing, with lightweight, breathable nylon taffeta on the outside, Gore-Tex film on the inside, and a nylon tricot lining. This combination gives softness and low weight (about 4.4 oz./square yard.)

Storm King Anorak

The ultimate in a wind and water resistant, breathable length garment. The Gore-Tex laminated fabric is a comfortable in all conditions from cold to wet to dry and windy. The Anorak has a large front kangaroo pocket with velcro closure for storing mittens or other bulky items. Two side pockets also with velcro closure for handwarming. A front zipper lets fresh air flow in the front. A wide snapped cover and inner flap protect chin. Colors: blue or green. Sizes: XS,S,M,L,XL. Av. Wt. 13 oz. \$65.00

Storm King Parka

An ideal garment for the changing conditions found in the mountains as well as for everyday use. Waist and hem drawcords to seal out the wind, and a large inside pocket for miscellaneous items. A nylon zipper in front has sliders top and bottom, covered by a rain flap with snap closure. Generously sized to fit over down clothing, with a modified raglan sleeve permitting free arm movement while climbing. Colors: blue or green. Sizes: XS,S,M,L,XL. Av. Wt. 18 oz. \$65.00

Storm King Cagoule

Offering the most coverage of Storm King garments, the Cagoule is ideal for climbers and for hikers in rainy climates. This garment extends well below the knees and is large enough to cover the wearer when sitting or kneeling. A bottom drawcord with lock tightens to seal out cold. Snaps permit the lower half to be tucked away to convert the Cagoule into an Anorak in less severe conditions or while actually climbing. Colors: blue or green. Men's sizes: S,M,L,XL. Av. Wt. 21 oz. \$79.00

Storm King Pants

An ideal match for Storm King upper garments, these laminated Gore-Tex pants provide complete protection for the lower half of the body. They resist rain, snow, and mud, and their breathability keeps moisture from condensing even while hiking or climbing in the rain. A drawcord at the waist keeps out drafts, while a lower 16-inch zipper allows the pants to be taken off over boots. The zipper has an outside rain flap and a full inside gusset. Front pocket access openings are zippered and covered to keep out wind and rain. Colors: blue or green. Sizes: XS,S,M,L,XL. Av. Wt. 14 oz. \$45.00

TRAILWISE ANORAK

A lightweight hooded pullover of coated nylon for protection against wind and rain. Long enough to provide full hip coverage for most people. Nylon zipper at neck. Drawcords at hood and hem with clamps. Velcro closures at cuffs. Large kangaroo pocket with velcro closure. Men's sizes: S,M,L,XL. Colors: blue, green or copper. Av. Wt. 7 oz. \$25.00

SIERRA WEST RAIN JACKET

A well-designed rain jacket, made from high-count urethane-coated nylon which is highly water-resistant, lightweight and durable. Hood is two layers of fabric which forms visor when drawn around face. Raglan shoulder allows comfortable fit and eliminates leaky seams over shoulder. Front of jacket near arm is open under weather flaps to permit ventilation. Full-length, two-way zipper is protected by a snap flap. Two large pockets with velcro closure; drawcord at hem. Sized generously to accommodate bulky garments underneath. All seams sewn with a double needle machine for maximum reinforcement. Colors: dark green or navy blue. Men's sizes: S,M,L,XL.

Av. Wt. 14 oz. \$31.00

SIERRA WEST PONCHOS

Quality, lightweight ponchos of water-resistant, coated rip-stop nylon. No seams except hood. Reinforced grommets and snaps are set along edges. Drawcord hood extends forward to form visor. Pivetta

In 1951, George Rudolf, founder of The Ski Hut, was in Europe to locate a manufacturer of superior mountaineering boots. His search led him to Montebelluna, the center of quality bootmaking in Italy. He was impressed with Pivetta and their 150-year-old tradition of hand workmanship, comfort, durability, and functional design and he immediately began to work with them in developing a line of mountaineering boots suited to the American market.

Compare these features with other boots which often seek to copy Pivetta quality:

- Finest quality leather used throughout
- Amply padded for comfort and minimal breaking-in
- Padded tongue pre-formed to shape of foot
- Snug heel fit supports ankle
- Roomy at toe and ball to eliminate chafing and toe jamming
- Strong heel counters and toe caps are **hand formed** to each boot assuring perfect sizing and snug fit
- Soles are **double stitched inside** the boot for strength and durability; no exposed sole stitching to wear through or leak; easy resoling
- High carbon Italian **yellow label Vibram** soles provide sure grip and long wear

HOW TO ORDER BOOTS

Please follow these directions carefully. The information requested below is essential for the fitting of your boots.

1. Put on the socks you intend to wear. Stand up on a piece of paper, having the weight of your body equally distributed on both feet. Holding a pencil vertically, clearly define the outline of each foot.
2. State your usual dress shoe size. Give both length and width; for example 9-C.
3. Enclose the foot outline and your dress shoe size with your order.

NOTE: We guarantee a proper fit. Instructions for trial use of your boots will be sent with them. Please observe these instructions carefully as boots which have been worn out-of-doors will not be accepted for exchange or refund. If the fit is incorrect, send the boots back to us with the coupon provided on the instruction sheet. A new pair of boots will be sent back to you postpaid.

THE SKI HUT WARRANTY

If for any reason you are not completely satisfied with your purchase, return the merchandise for exchange, replacement or refund.

In our continuing effort to serve your outdoor needs more efficiently, we have opened a new store in Palo Alto, California. Together with the Berkeley store we now have more display space and have expanded our selection of merchandise.

If you happen to be in the San Francisco Bay Area, stop by to browse. You will find many items that are not listed in our catalog. For instance, during the ski season we offer a complete line of downhill equipment and clothing. We have a complete boating department.

Both of our stores rent tents, packs, sleeping bags, crampons and ice axes. In winter we rent snowshoes, Nordic and Alpine ski equipment.

The Ski Hut and Trailwise, our sister corporation are proud of their continuing position of leadership in supplying the increasing demand for high-quality outdoor equipment. Considerable thought, experience and care go into all Trailwise items. New designs are field-tested by our own staff and by friends who have the knowledge and experience to thoroughly evaluate any given piece of equipment. MATERIALS USED IN THE MANUFACTURE OF TRAILWISE EQUIPMENT ARE SELECTED FOR MAXIMUM QUALITY AND PERFORMANCE RATHER THAN COST. Trailwise takes pride in the workmanship that goes into all items bearing the Trailwise label.

THE SKI HUT WARRANTY

If for any reason you are not completely satisfied with your purchase, return the merchandise for exchange, replacement or refund, including surface postage both ways.

BACK ORDERS

Items temporarily out of stock will be back ordered. If the delay is estimated to be longer than three weeks you will be notified. Food items will not be back ordered.

PRICES

Prices are subject to change without notice. On minor increases, the merchandise will be shipped and you will be billed for the difference. Most of our customers prefer to receive their merchandise rather than wait to be notified of an increase. If a price change is unsatisfactory, please return the merchandise for a refund.

HOW TO RETURN MERCHANDISE

Return items within 30 days if not completely satisfied. Please enclose a letter explaining the problem and what changes you want made. Be sure to include your order number and the name of the person "Ordered By." For your protection please insure the parcel against loss.

METZELER INFLATABLES

Metzeler is Europe's largest maker of inflatable recreational boats. Over 25 years of experience in this field has produced a high level of engineering excellence. Metzeler Inflatables are made from a three layer composite laminate of hypalon/Trevira polyester tire belting/neoprene. It resists rot and is unaffected by grease, oil or seawater. All seams are hot-vulcanized for greater strength. These boats are designed to hold greater air pressure resulting in a rigid high performance craft.

ENCHANTRESS SAN FRANCISCO

METZELER AZTEK, MAYA AND JUCA

These roomy, high-performance boats are designed to be rowed, towed, sailed or motored. The sides and floor accept an incredible amount of air pressure resulting in an unusually rigid hull configuration. Because they are so rigid they can handle power motors and include a marine plywood transom for that purpose. Minimal set up time ensures that your craft will be seaworthy within a matter of minutes. The light reflecting yellow/orange color prevents heat/pressure build-up within the air chambers. These safe and stable boats are easy to maintain and come complete with oars, pumps, pressure gauge, repair kit, transom and carrying bag.
